

## FAQ's Bombshell Beer On-line Ordering

Bombshell is pleased to announce on-line ordering and delivery service to help everyone do their part to flatten the curve.

We know everyone is suffering right now and we have lowered the pricing on our canned beer and growlers. Kegs can also be purchased to-go or delivery. We hope the attractive pricing will encourage you to support Bombshell and its employees during this crisis.

If you are a **Tap Club** member and want to order on-line please log-in with the email that is connected to your **Tap Club** account. This will enable you to earn points. Please note, we are not able to offer additional discounts on beer at this time as we have already lowered pricing significantly. We hope you understand.
